

International Society for Helical Foundations

Proceedings of
**1st International
Geotechnical
Symposium on Helical
Foundations**

August 8 – 10, 2013
Amherst, Massachusetts

*PROCEEDINGS OF THE 1ST INTERNATIONAL GEOTECHNICAL
SYMPOSIUM ON HELICAL FOUNDATIONS*

2013

Table of Contents

Review Papers

Cristina de Hollanda Cavalcanti Tsuha, Luc Thorel and Gerard Rault, "A Review of Centrifuge Modeling of Helical Foundations"	1-24
Samuel P. Clemence and Ashraf Ghaly, "A Review of Model-Scale Laboratory Studies on Helical Anchors and Screw Piles"	25-45
Alan J. Lutenegger, "A Review of Full-Scale Field Studies on Screw-Piles and Helical Anchors"	46-66

Technical Papers

Yasser Abdelghany and M. Hesham El Naggar, "Full Scale Field Investigations & Numerical Analysis of Innovative Seismic Composite Fiber Reinforced Poylmer and Reinforced Grouted Helical Screw Instrumented Piles Under Axial & Lateral Monotonic & Cyclic Loadings"	67-80
James A. Cherry and Howard A. Perko, "Deflection of Helical Piles: A Load Test Database Review"	81-91
Daniel Coats, "True Pitch Helices – Importance to Integrity of Screw Pile and Anchor Design"	92-101
Matthew A. Conte and Samuel P. Clemence, "Innovative Use of Helical Foundations for a Submarine Simulation Unit at Electric Boat Division, U.S. Navy Submarine Base, Groton, CT"	102-107
M. Meckkey El Sharnouby and M. Hesham El Naggar, "Field Investigation of Axial Monotonic and Cyclic Performance of Reinforced Helical Pulldown Micropiles (RHPM)"	108-118
Mark H. Fairbairn, Lee Goen, Jason Herron and Gary Seider, "Axial and Lateral Capacity of Tapered Helical Piles for Transmission Pole Structures"	119-130
Kenneth G. Gavin, Paul Doherty and Giovanni Spagnoli, "Prediction of the Installation Torque Resistance of Large Diameter Helical Piles in Dense Sand"	131-140
Daniel George and Samuel P. Clemence, "Effect of Installation Disturbance on Elastic Modulus for Helical Anchor Short-Term Uplift Loading in Clay"	141-152
Ashraf Ghaly, "Using the Internet as an Interactive Platform to Design Soil Anchors"	153-165

Cary Hannon, “Helical Pulldown Micropiles for Baptist Hospital Expansion, Pensacola FL” ..	166-173
Cary Hannon, “Historic Bolivar County Courthouse Underpinning, Rosedale, MS”	174-181
Cary Hannon, “Helical Pipeline Restraints for Georgia Pacific Rice Creek Plant, Palatka, FL” .	182-187
Joe Heinisch and Tayler Cook, “Torque Correlation for Solid Square Shaft Helical Piles”	188-199
Alan J. Lutenegger, “Uplift of Shallow Single-Helix Screw-Piles in Sand and Clay”	200-210
Alan J. Lutenegger, “Factors Affecting Torque Correlations of Screw-Piles and Helical Anchors”	211-224
Gustavo Padros, “Analysis of Cylindrical Shear Resistance of Screw Piles Subjected to Compressive Loads Based on Direct Shear Tests”	225-241
Michael Perlow, Jr., “Settlement Based Helical Screw Pile Design”	242-250
Loana Sanchez, Thiago da Costa Santos and Cristina de Hollanda Cavalcanti Tsuha, “The Influence of the Geometry on the Helical Anchor Behavior in an Unsaturated Tropical Residual Soil”	251-261
Jose Antonio Schiavon, Cristina de Hollanda Cavalcanti Tsuha and Edmindo Rogerio Esquivel, “Application of Two-Dimensional Photoelastic Analysis Study of Helical Anchors”	262-271
Paul Schied, “Rehabilitation and Reconstruction of Existing Crib Wall Retaining Structures with Helical Piers”	272-284
James P. Stewart, “Helical Piles: Just What the Doctor Ordered”	285-295
Armin Stuedlein and Marco Uzielli, “Stochastic Simulation of Uplift Load-Displacement of Helical Anchors in Clay”	296-307
Cristina de Hollanda Cavalcanti Tsuha, Luc Thorel, Gerard Rault, and Jaques Garnier, “Evaluation of the Effect of Installation on the Helical Pile Performance in Sand by Centrifuge Tests”	308-319
Dino Vito and Tayler Cook, “Highly Loaded Helical Piles in Compression and Tension Applications: A Case Study of Two Projects”	320-326
Dino Vito and Tayler Cook, “Case Histories on the Use of Helical Piles for Retrofitting and New Construction ”	327-335
Benjamin White, Ashref Alzawi, Thomas Bradka and Yung Phang, “High Strain Dynamic Load Testing On Helical Piles – Case History”	336-346
